

Myridien LLC (YGET) Privacy Policy
Effective Date: August 31, 2026

This Privacy Policy (“Policy”) describes how Myridien LLC (“Myridien LLC,” “Company,” “we,” “us,” or “our”) collects, uses, discloses, and otherwise processes personal information when you use the YGET mobile application and related websites, features, and services (collectively, the “Services”).

This Policy supplements the Myridien LLC (YGET) Terms of Service (the “Myridien Terms”). It forms part of the Myridien Terms. Words used but not defined in this Policy have the meanings given in the Myridien Terms. If this Policy and the Myridien Terms conflict on a privacy topic, this Policy controls for that topic.

By accessing or using the Services, creating an account, or otherwise indicating consent, you acknowledge this Policy. If you do not agree, do not use the Services.

You must be at least 18 years old to use the Services. Do not use the Services or provide personal information if you are under 18. The Services are not directed to children. We implement technical measures intended to prevent individuals under 18 from creating an account. If we become aware that someone under 18 has provided personal information, we will investigate and, where applicable, delete the account and related data, consistent with Section 1 of the Myridien Terms.

1. Personal Information We Collect

We collect personal information directly from you, automatically when you use the Services, and from third parties you connect or that help us operate the Services.

A. Information you provide

Account and profile information. Name, email address, username, password, country or ZIP/postal code, date of birth, sex or gender, profile photo (if you add one), and similar account details.

Health, nutrition, and activity data. Information you choose to log or that the Services generate from what you log, which may include:

- dietary habits, meal plans, recipes, and food or drink consumed;
- calorie, macro, and other nutrition values, including data drawn from the Food Database described in the Myridien Terms;
- dietary restrictions and allergy information you enter;
- medications or supplements you choose to log;
- fitness level, activity, and goals;
- lifestyle information (for example, sleep);
- body measurements such as height, weight, and BMI;

- information that may relate to a physiological condition;

Some of this information is sensitive personal information or consumer health data under applicable law when it indicates or allows someone to infer a health condition. You control whether to provide it. The Services are not medical care. As stated in Section 4 of the Myridien Terms, YGET is not a medical professional or medical organization and does not provide medical advice.

Communications. Information you send to Support, including name, email, and message content.

Community and social features. Content you post or share with other users, including diary entries, photos, goals, or messages, if those features are available.

Research and surveys. Responses you choose to submit.

Preferences. Communication, privacy, and product preferences.

Payment information. If you buy Premium Services on the web, a third-party payment processor collects payment details. If you buy through Apple App Store or Google Play, the App Provider processes payment under its terms. Myridien LLC does not store full payment card numbers.

B. Information collected automatically

Usage and device data, which may include browser or operating system, device type, IP address, cookie identifiers, mobile advertising identifiers and other unique identifiers, mobile carrier, approximate location inferred from IP address, crash and diagnostics data, and how you use the Services (features used, frequency, duration, and links clicked).

Cookies and similar technologies (pixels, SDKs, local storage, and log files) used to operate the Services, keep them secure, remember preferences, measure usage, and, where permitted, personalize content and advertising.

C. Information from third parties

Service providers that host, analyze, support, or process payments.

Grocery, retail, fitness, or other integrations you choose to connect (the Myridien Terms note that those third parties may discontinue service).

Social login providers if you sign in through a Social Networking Service. We may receive name, email, profile photo, and other profile information the provider shares under its settings and your authorization.

Marketing and advertising partners (interests, demographics, and ad interaction data).

Other users, if they share content that includes information about you.

Connected health devices and health repositories, with your permission, such as wearables, scales, activity trackers, heart-rate monitors, continuous glucose monitors, Apple HealthKit, Google Health Connect, or similar platforms. Information you send from HealthKit, Health Connect, or Samsung Health is also governed by those providers' terms and privacy policies. Unique information you choose to send from HealthKit, Health Connect, or Samsung Health is not used by Myridien LLC for marketing or advertising and is not transferred by Myridien LLC to third parties for marketing or advertising.

D. Aggregated, de-identified, or anonymized information

We may create aggregated, de-identified, or anonymized information that is no longer personal information under applicable law, and use or disclose it as permitted by law.

2. How We Use Personal Information

We use personal information to:

- provide, operate, administer, and support the Services and your account, including Premium Services, the Food Database, meal planning, and features described in the Myridien Terms;
- personalize content, recommendations, and reports, including through proprietary or third-party technologies such as machine learning or large language models (the Myridien Terms disclose that such output can be inaccurate);
- process subscriptions, renewals, cancellations, refunds where required, and related billing records;
- communicate with you about the Services, security, and material changes to the Myridien Terms or this Policy;
- respond to privacy and support requests;
- send promotional communications where permitted, and honor opt-outs;
- measure and improve the Services, ads, and research (including surveys);
- maintain security, prevent fraud and abuse, and enforce the Myridien Terms, Community Guidelines, and our policies;
- comply with law, respond to lawful requests, and establish, exercise, or defend legal claims, including the dispute process in Section 12 of the Myridien Terms;
- carry out internal operations (accounting, audits, recordkeeping); and
- evaluate or complete a merger, acquisition, financing, or sale of assets.

We will not use User-Generated Content in a manner inconsistent with this Policy, as stated in the Myridien Terms.

3. How We Disclose Personal Information

We disclose personal information to:

Service providers that perform hosting, storage, analytics, customer support, payment processing, email delivery, security, and similar functions on our behalf.

Business partners needed to operate integrations you use (for example, grocery or fitness partners). Those partners process information under their own terms and policies when you leave the Services.

Other users, if you post or share content through social or sharing features. Review your settings before sharing diary or health information.

Marketing and advertising partners, including advertising networks and platforms, for serving, measuring, and optimizing ads, except we do not use unique HealthKit, Health Connect, or Samsung Health data for marketing or advertising.

Analytics providers that help us understand use of the Services.

Research partners, if you participate in a survey or study.

Authorities and other parties when required by law or to protect rights, safety, and the Services, or to enforce the Myridien Terms.

Successors in a corporate transaction, subject to applicable law.

We do not sell personal information for money. Certain uses of cookies, advertising identifiers, or analytics may be “sale,” “sharing,” or “targeted advertising” under some U.S. state laws. You may opt out as described in Section 5.

4. Sensitive and health-related information

Health, nutrition, body-measurement, allergy, medication, and similar data you provide is used to operate the features you request (logging, planning, progress tracking, and related recommendations). We do not use unique data obtained from Apple HealthKit, Google Health Connect, or Samsung Health for marketing or advertising, and we do not transfer that unique data to third parties for marketing or advertising.

You are responsible for the accuracy of allergy and medical information you enter. The Food Database and recommendations may be incomplete. Do not rely on the Services to identify allergens or drug-food interactions. Follow your clinician’s advice.

5. Your choices

Account. You may update certain profile information in the App. You may delete your account as described in the Myridien Terms. Deleting the App from a device does not delete your account or cancel Premium Services. Deleting your account usually cannot be reversed and may not cancel a store-billed subscription; cancel with the App Provider if you subscribed there.

Marketing. You may unsubscribe from promotional email using the link in the message or account settings. Transactional messages (security, billing, Terms or Policy changes) may still be sent.

Cookies and ads. You may use browser controls, device ad-tracking settings, and industry opt-outs such as optout.networkadvertising.org and youradchoices.com. Required cookies are needed for the Services to function.

App permissions. You may revoke camera, microphone, photo, location, or health-repository permissions in device settings. Some features will stop working.

Do Not Sell or Share / targeted advertising. Where required by law, you may opt out of sale, sharing, or targeted advertising by using in-App privacy settings (when available), cookie preference tools on our website, or by emailing the contact in Section 11 with the subject “Privacy Opt-Out” and enough information for us to identify your account.

6. Your privacy rights

Depending on where you live, you may have rights to:

- access or know the personal information we hold about you;
- correct inaccurate personal information;
- delete personal information, subject to legal exceptions;
- obtain a portable copy of certain information;
- opt out of sale, sharing, or targeted advertising;
- limit use of sensitive personal information, where that right applies;
- appeal a denied request; and
- lodge a complaint with a regulator.

We will not discriminate against you for exercising privacy rights. We may need to verify your request. You may use an authorized agent where the law allows, if the agent provides proof of authority.

To exercise rights, email privacy@Myridien.com or write to the address in Section 11. We will respond within the time required by applicable law.

If you are not a U.S. resident, Section 13 of the Myridien Terms describes international use and transfer of information to the United States.

7. Retention

We keep personal information as long as your account is active and as needed to provide the Services, comply with law, resolve disputes under the Myridien Terms, enforce our agreements, and maintain business records. After account deletion, residual copies may remain in backups for a limited period and User-Generated Content already shared with other users may remain visible, as the Myridien Terms explain.

8. Security

We use administrative, technical, and organizational measures designed to protect personal information. No method of transmission or storage is completely secure. You are responsible for keeping your password confidential, as required by the Myridien Terms.

9. International transfers

Myridien LLC is based in the United States. Personal information is processed in the United States and in other countries where our providers operate. Those countries may have different privacy laws. By using the Services, you understand that information will be transferred to the United States as described in the Myridien Terms and this Policy.

10. Changes to this Policy

We may update this Policy. We will post the revised Policy and change the Effective Date. For material changes, we will provide notice consistent with the Myridien Terms (including in-App or email notice where appropriate). Continued use after notice means you accept the updated Policy. If you do not agree, stop using the Services and delete your account.

11. Contact

Privacy and data-protection requests:

Myridien LLC
4915 Atlanta Highway
Flowery Branch, GA 30542
Attn: Privacy
Email: privacy@Myridien.com

Support and general questions may also be sent as described in Section 16 of the Myridien Terms:

Myridien LLC
4915 Atlanta Highway

Flowery Branch, GA 30542
Attn: Legal

Please include your full name, email address, postal address, and a clear description of your request.

This Policy is governed by the same choice-of-law and dispute provisions as the Myridien Terms, including the laws of the State of Georgia and the dispute-resolution process in Section 12 of the Myridien Terms, except where a privacy law gives you a non-waivable right to use another process.
